Moira was born in the deep-sea city of Arrecia, a Cordelian territory south of Kaledona. After a family holiday to Kaledona when she was a child, she fell in love with the surface, and living on land became her life's goal. After saving up and finally buying her own transformation pendant, Moira moved to Wispwood in 4E 271, but poor financial planning soon left her without coin or a place to stay.

About

Ava Lunar was born in the capital city of Valinia and has always had a passion for medicine and helping others. Her low aptitude for spellcasting dashed her hopes of becoming a healer, so she instead turned towards alchemy and natural medicines, quickly developing a love for it.

She opened The Glass Vial in the small village of Wispwood 20 years ago and has been a trusted and beloved member of the community since. Despite her skills, she prefers certainty over discovery and is content maintaining her Second Level Certification in Alchemy, only making and selling medicinal formulations. She took on Alida as a mentee after seeing her passion and lack of direction.
