

Valentines from a Tinder Daddy

For a cis woman under 30, it's easy to get Tinder matches. Just set your gender preference to 'men' and age preference to 45+. Suicide swipe for a few minutes, and behold a smorgasbord of weird old men who would meet up with you at a moment's notice. Happy Valentine's Day, sister.

If you're not a cis woman under 30, borrow one of your friends' phones. Catfishing can be a great group activity, too. Once you have your first match, he'll probably message you first. Ignore the inscrutable lack of grammar skills (and the red flag in the top-right corner) and just get started.

You're probably wondering how gullible your average Tinder Daddy is. Feel free to test the waters a little.

If you ever run out of things to say, just lay back and let your Tinder Daddy

guide the exchange. If Tinder Daddies are good at one thing, it's *really* dragging out a conversation. It's almost like you don't need to talk at all.

Send me a picture without your face.

Many Tinder Daddies are actually willing to spend money on sex. It'll be hard to make yours pay up without following through on something he really wants. Tinder Daddies are notoriously thrifty.

But a little at a time I need to know that you're serious and you need to know that I'll follow through. Always the process of being sure one is not getting taken to the cleaners.

You still there

If you get bored, and wonder why your Tinder Daddy doesn't seem to know or care about the real you, it can be fun to creatively reveal your true identity as a catfish. By being even more outlandish and repulsive than he is.

The cleaners after closing time are actually a very nice place to fuck. We can turn on the laundry machines and you can push me up against them while they rumble

I agree. There are an incredible number of places like that. So you didn't cum did you after I told you not to

Is your mouth available

Thinking about laundry it was hard not to.

So you don't listen. You
really want to be punished

The half of my mouth that
isn't chewing bubble gum:
very available

Not sure I want my Dick all
covered in gum

You're really sassy

But are you all talk and no
action

But when I start blowing bubbles and you pop them with that phallus, you'll know real power and you'll change your mind about fucking hubba bubba

Ok I'm willing to try **wat. no**

Do you like sweet or sour?

Me I'm a sour girl.

Sour is best. Sweet is too vanilla

I like vanilla from a man's cock after he's eaten a tub of ice cream

Let me assure you, however, that your Tinder Daddy will *always* find something more incorrigible to say than you could ever imagine. You are going down a dark road right now. Don't be afraid to stand up for yourself.

You need to be ring gagged. Blind folded and hand cuffed to your thighs and throat fucked until your pussy is dripping

Then being told you can't cum until I let you

Fri, Feb 2, 12:22 PM

I had good dreams. They were about taking you to a park with a secluded area. Tying you up with a blindfold. And putting a sign. Free fuck. Any hole. Then hiding and watching what happens

Friday 5:57 PM

My dude you need to think that through. If we're in a secluded area and you tie me up, there won't be anything to see cuz no one will come along. Duh dur

The sad truth is that nothing, absolutely *nothing*, will stop your Tinder Daddy from desiring you.

How do I Venmo you do I
can see more

\$\$\$\$\$\$\$\$\$\$\$ is the
venmo I use for my hubba
bubba dealings

So is all this just a game?
Obviously you really get
off by these
communications. But is
there more there than the
talk. And what do you
expect from me and what
do I get.

You're good by the way
and different

Talk tomorrow

If at this point you're wondering if you could make catfishing Tinder Daddies into a real occupation, I will advise you against trying. There's a very fine line between a self-aware performance of septuagenarian love, and the real thing. You'll know you've gone too far with it when you have your first sex dream about your Grandpa.
